

To whom it may concern at the FCC:

I am concerned that there is an attempt to remove some of the services I pay for from XM satellite radio. Specifically, I used the Instant Traffic and Weather report everytime I enter my automobile, and have found that service extremely useful. I work in DC, and we have enough commuting problems when there are no traffic problems. When there are problems, it can take 2 or 3 times as long to get to the desired destination. XMSR is the BEST and FASTEST way for me to get the information I need.

I respectfully request that the FCC reject the National Association of Broadcasters petition 04-160, and allow me to continue to receive the services I am paying for.

Thank you,
Roger McGinnis
